MEMBERSHIP

- **Call for Nominations**

This is the call for nominations for the position of Chairman of SAHISA for 2009/2010.

For each nomination there should be a proposer and seconder. According to the Constitution, the Chair must be a current member of the SAHISA Council, may be proposed and seconded by any SAHISA members in good standing and is elected by the SAHISA Council at the AGM.

The Chair and Vice Chair are re-elected annually and the term of office is usually for a two year period. The current Chair Paul Channon and Vice Chair Mary Williams have served one year and are available for election for a second year.

Nominations should please be sent to the SAHISA Secretary, Jenny Mundell. The deadline for nominations is Friday 4 September.

Contact: Jenny Mundell. Tel: 011 648 1331, Email: jennym@isasa.org

SAHISA / ISASA CONFERENCE 2009

- **Delegate List**

The latest delegate list for the SAHISA / ISASA Conference 2009 is attached to this Bulletin.

Delegates registered for the annual SAHISA / ISASA conference are urged to see that reservation and travel details are correctly listed in the attached document. If there are any queries regarding transport or accommodation, delegates are asked to please contact Marina Henwood.

- **Travel Plans**

Delegates are urged to communicate travel plans to Marina Henwood as soon as possible.

If Marina has accurate details she will be able to:

1. Ensure that the delegates are met at the airport if the flight arrival and departure times are communicated to her by 24 August 2009.
2. Facilitate border crossings, if delegates communicate estimated time of arrival and the name of the border post that they intend to use. Jazzman (00268 604 7206) will meet delegates at the border post and assist where necessary.

The bus is proving to be popular and we assure delegates that safety and comfort have been carefully considered by the organising committee.

ARTICLE OF INTEREST

- **Here Comes Everybody**

People are innately social and new online media provide innovative ways for communities to form. Traditionally, organizing people to work together has been costly in money, time and effort. Computerized communications make it very easy, quick and almost free.

The [Full Abstract](#) is available on the ISASA website.

GENERAL

- **International Youth Day: 12 August**

The Youth are the energisers of today and the holders of tomorrow so it is imperative, says the UN, “that youth embrace the challenge of environmental, societal and economic sustainability, as they help pave the way forward through the 21st century and beyond.”

The green speech given by Paul Hawken, an award-winning environmentalist, entrepreneur, author and journalist, may help to promote an environmentally proactive youth.

The speech was so inspiring that it has since been read by people across the world. We share some of this powerful green speech with you and encourage you to share it with the youth in your lives.

“You are going to have to figure out what it means to be a human being on earth at a time when every living system is declining, and the rate of decline is accelerating.

Basically, the earth needs a new operating system and we need it within a few decades. You are the programmers. This planet came with a set of operating instructions, but we seem to have misplaced them. Important rules like don't poison the water, soil or air, and don't let the earth get overcrowded, and don't touch the thermostat, have been broken. There is invisible writing on the back of the certificate you will receive, 'you are brilliant, and the earth is hiring.'

When asked if I am pessimistic or optimistic about the future, my answer is always the same: If you look at the science behind what is happening on earth and aren't pessimistic, you don't understand data. But if you meet the people who are working to restore this earth and the lives of the poor, and you aren't optimistic, you haven't got a pulse. What I see everywhere in the world are ordinary people willing to confront despair, power and incalculable odds in order to restore some semblance of grace, justice and beauty to this world.

You join a multitude of caring people. No one knows how many groups and organisations are working on the most salient issues of our day: climate change, poverty, deforestation, peace, water, hunger, conservation, human rights and more. This is the largest movement the world has ever seen. Rather than control, it seeks connection. Rather than dominance, it strives to disperse concentrations of power.

Large as it is, no one knows the true size of this movement. It provides hope, support and meaning to billions of people in the world. Its clout resides in ideas, not in force. It is made up of teachers, children, peasants, business people, rappers, organic farmers, nuns, artists, government workers, fisher folk, engineers, students, incorrigible writers, weeping Muslims, concerned mothers, poets, doctors without borders, grieving Christians, street musicians, the President of the United States of America and, as the writer David James Duncan would say, the Creator, the One who loves us all in such a huge way.

The living world is not 'out there' somewhere, but in your heart. You can print money to bail out a bank but you can't print life to bail out a planet. At present we are stealing the future, selling it in the present and calling it gross domestic product. We can just as easily have an economy that is based on healing the future instead of stealing it. We can either create assets for the future or take the assets of the future. One is called restoration and the other exploitation. And whenever we exploit the earth we exploit people and cause untold suffering. Working for the earth is not a way to get rich, it is a way to be rich.

The generations before you failed. Nature beckons you to be on her side. You couldn't ask for a better boss. The most unrealistic person in the world is the cynic, not the dreamer.

This is your century. Take it and run as if your life depends on it."

- **"Get It Right"**

We try to "get it right" and communicate information that you can trust.

If we have neglected to communicate any relevant details or if you would like to contribute to the SAHISA Weekly Bulletin, please contact Jenny Mundell.

- **Quote of the Week**

"Control is not leadership; management is not leadership; leadership is leadership. If you seek to lead, invest at least 50% of your time in leading yourself – your own purpose, ethics, principles, motivation, conduct. Invest at least 20% leading those with authority over you and 15% leading your peers."
